

CKAN Coin White Paper

1. Introduction

CKAN, short for Genghis Khan, is a groundbreaking meme coin inspired by the legendary conqueror. Our mission is to infuse the cryptocurrency world with the warrior spirit—embodying strength, leadership, and resilience in a decentralized future. By leveraging the historical legacy of Genghis Khan, CKAN offers a unique and compelling experience for crypto enthusiasts.

Genghis Khan, born Temüjin in 1162 in the Mongolian steppes, became one of history's greatest military strategists. His unmatched leadership and ability to unite disparate tribes led to the creation of the vast Mongol Empire. CKAN pays homage to this legacy, translating the spirit of conquest and unity into the digital realm.

CKAN aims to:

- Build a strong, engaged community
- Provide real utility beyond typical meme coins
- Integrate seamlessly with gaming ecosystems

Through these pillars, CKAN strives to be a symbol of strength and innovation in the cryptocurrency space.

2. Tokenomics

CKAN's total supply is 1 billion tokens. The supply is fixed to maintain scarcity. At launch, 300 million CKAN tokens will circulate, including allocations for liquidity and public sales.

Distribution:

- Liquidity Pool: 100M (10%) – Partially locked
- Public Allocation: 200M (20%) – ICO & staking
- Reserved Tokens: 700M (70%)
- Development: 100M

- Marketing: 100M
- Team: 100M (vesting)
- Partnerships: 100M
- Locked Reserve: 300M (for utility and burns)

3. Blockchain and Technology

CKAN runs on Binance Smart Chain (BSC), ensuring fast and cost-efficient transactions. BSC's compatibility with DEXs like PancakeSwap supports CKAN's liquidity.

Smart contracts automate token features. The code is open-source, audited, and publicly accessible for verification. Security and transparency are key pillars of the CKAN contract design.

4. Utility and Use Cases

CKAN can be used for peer-to-peer transactions, DeFi, and within gaming platforms. It will power in-game assets and staking mechanics, bridging financial and virtual ecosystems.

5. Community and Roadmap

CKAN values community-first growth. Frequent updates, open communication, and community governance ensure alignment with holders' interests.

Phases:

- Phase 1: Launch & Airdrops
- Phase 2: ICO & Growth
- Phase 3: Listings & Partnerships
- Phase 4: Ecosystem Expansion (governance, burns, tools)

6. Governance and Voting Rights

CKAN holders will vote via platforms like Snapshot. Voting rights are proportional to holdings. Governance contracts ensure secure, transparent decision-making.

7. Risks and Compliance

CKAN acknowledges regulatory and market risks. The project remains adaptable and consults legal experts to ensure global compliance.

8. Renouncement and Token Security

CKAN Coin launched with no ownership—no ownable function was ever added. The contract is immutable and autonomous.

There was no renouncement needed—it never had an owner.

- ✓ No centralized control
- ✓ No backdoors
- ✓ Fully aligned with DeFi principles

Security:

- Verified contract on BscScan
- Public tokenomics and lock schedules
- Community-led governance incoming

9. Conclusion

CKAN is a modern, community-powered meme coin inspired by history and built on solid blockchain principles. With a strong foundation and active development, it aims to be a lasting asset in crypto.
